

# Long Island Federation of Labor/NYCOSH PRESENTS

## Indoor Air Quality

Thursday, October 17  
4PM-6PM

Held via Zoom

**[Click here to register](#)**

Indoor air quality is one of the most common concerns in indoor working environments, yet there remains confusion over what it is and how we should pay attention to it. In this workshop, we'll cover:

- Indoor environment basics
- Construction/renovation related hazards
- Asbestos and mold
- Legionnaires' disease
- Indoor air quality testing
- Role of OSHA/PESH
- How to approach employers about air quality concerns
