

What's new with Infectious Diseases?

This year, New York State had higher levels of flu infection than we've seen in the last two decades. Join us for an update on the most common infectious diseases right now. We'll cover:

- **Signs, symptoms, and differences between diseases**
- **Risk factors for emerging variants**
- **Strategies for keeping yourself, your coworkers, and your workplace safe**

**Wednesday, January 28, 2026
4:00pm – 6:00pm**

Virtual Training
